Lemmy Lin

Embedded Software Engineer at Stoneridge, Inc.
Novi, Michigan, United States

Summary

As a quick learner and team player, I am always eager to take on new projects and collaborate with others to achieve common goals. Whether I am working on a solo project or as part of a larger team, I am dedicated to delivering high-quality work and exceeding expectations.

Feel free to connect with me to learn more about my experience and background, and to explore potential opportunities for collaboration and growth in the software development field.

Experience

Stoneridge
Embedded Software Engineer
May 2023 - Present (2 years 4 months)
Novi, Michigan, United States

Targets' Tip
Full Stack Developer / Consultant
August 2022 - May 2023 (10 months)
Okemos, Michigan, United States

Developed and maintained a cross-platform app using Flutter and Dart to help academicians connect and address academic harassment.

Integrated Google Firebase to provide real-time database, user authentication, and storage services for the app.

Acted as a consultant for other development teams, providing guidance and technical expertise on best practices and technologies.

Extensive experience in full-stack development, including designing and implementing front-end user interfaces, APIs, and back-end systems.

Passionate about staying up-to-date with the latest software development trends, technologies, and best practices, and eager to share knowledge and mentorship with others.

MSU Student Life & Engagement
Retail Attendant at Spartan Spirit Shop
May 2021 - May 2023 (2 years 1 month)
East Lansing, Michigan, United States

Demonstrated strong customer service skills by greeting customers, assisting with purchases, and resolving customer complaints in a professional and friendly manner.

Processed cash and card transactions accurately and efficiently using a point-of-sale system.

Maintained a clean and organized retail environment, including restocking merchandise, cleaning and organizing displays, and arranging merchandise attractively. While paying attention to detail in handling merchandise, ensuring proper tagging and pricing, and maintaining accurate records.

Fidelity Investments
Systems Engineering Intern
June 2022 - August 2022 (3 months)
Merrimack, New Hampshire, United States

Provides end-user technology support for Fidelity office space. Including computers, monitors, printers, phones, accessories, and audio/visual equipment.

Troubleshooting Microsoft Operating Systems, MS Office applications, and other external and internally built applications.

Build and deploy computers, remote desktops, servers, and virtual machines using VMware, HP iLO, and custom-built software with a custom image.

Assist other regional technical support teams and operations groups to ensure the successful completion of customer requests and projects.

Michigan State University - Retail Services
Student Food Service Assistant
February 2021 - May 2021 (4 months)
East Lansing, Michigan, United States

Delivered outstanding culinary services and Spartan experiences by providing exceptional customer service to residents and guests on campus.

Supported operations and workflow by completing tasks in a timely manner with minimal supervision.

Education

Michigan State University

Bachelor's degree, Computer Science · (2019 - 2023)
